advanced panel system

**THERMASTEEL™**  
ADVANCED PANEL SYSTEM

## 4 IN 1 SYSTEM

Steel & EPS composite interlocking panels that provide:

- Structural Framing
- Insulation
- Sheathing
- Vapor Barrier

## SAVE TIME AND MONEY

CUT TIME AND LABOR by more than 50%  
CUT ENERGY COSTS by up to 70%

### Strong

Our patented steel and EPS composite load bearing panels eliminate the need for any structural support.

Hurricane & earthquake resistant.

### Fast, Simple Installation

Reduce construction steps - each panel contains framing, insulation, vapor barrier, and sheathing.

Panels are custom made and arrive on site numbered for assembly and weigh 45 pounds each - no cranes or lifts needed.

Install a track, set in place. No cutting on job site. Pre-chased for standard electric.

### Sustainable

Reduce energy use and cost by up to 70%. Panels are R-35 - R-49, and meet or exceed all energy codes.

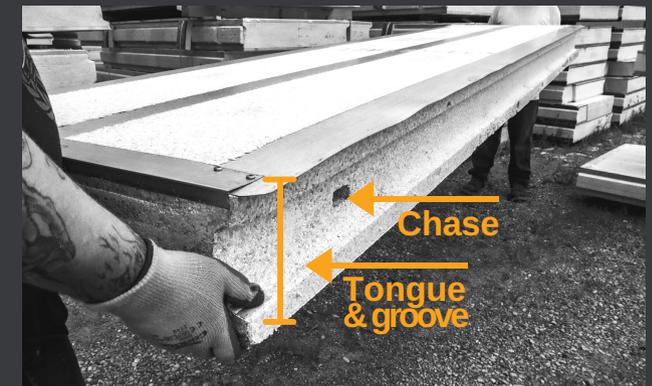

Environmentally friendly materials. ZERO WASTE facility, ZERO WASTE on job site. No cutting down trees.

The product is recyclable and life expectancy is 350 years.

### Safe

Hurricane, Fire, and Seismic resistant. Approved for HWHZ (High Wind Hurricane Zone, 220mph wind loads.) Meets lowest smoke and flame spread codes.

No "off-gassing," CFC, HCFC free. No carcinogens, allergens, or pathogens. Will not allow mold or mildew to develop. Insect deterrent and termite free.

### Versatile

5 panel types:  
Basement, Exterior, Interior, Roof, Floor

Build any size any style home: passive, tiny homes, single family, Net Zero Build. Our panels are custom made to your design specs, including archways and cutouts and framing for windows and doors.

Clad your building with ANY siding directly to the panel - no additional sheathing necessary.
